Standard Features and Equipment of all Jura-Capresso Automatic Coffee Centers

1 Internal 16 grams coffee brewing chamber to brew up to 16 oz. of coffee at once!
2 Two-step aroma brewing for maximum flavor and crema
3 Commercial Grade Conical Steel Burr Grinder with 6 fineness settings (**ENA**: 5 settings)
4 Stainless Steel lined ThermoBlock heating system. Unlike boiler systems, there is never any water remaining in the heating system after brewing.
5 Easy-to-read, red LED alphanumeric display (**ENA**: LCD display green, red, yellow)
6 Bypass funnel for use with pre-ground coffee
7 Height adjustable dual coffee spout
8 Automatic Monitoring Systems for: Hot water rinse cycle • Refill water tank (never run out of water) • Refill beans • Empty internal tray • Brew chamber cleaning cycle (w. tablet) to remove internal coffee oil build-up • Water filter exchange • Decalcifying
9 Unlimited steam and hot water output
10 Removable water container with valve
11 Fits underneath standard kitchen cabinets (16” clearing)
12 Cleaning Tablets and Water Filter included
13 Full instructions, water proof quick reference guide, DVD included.
14 Two Year Warranty includes free 2-way transport within the lower 48 states
15 All machines are UL listed
16 Monday-Saturday: toll free 800 number with in-house customer service representatives
